

MICROBIAL ENFORCED COMPOST

TECHNICAL DATA SHEET

DESCRIPTION

Microbial Enforced Compost is our highest grade product loaded with enriched organics, beneficial microbes and specially formulated to amend or correct damaged soils. This compost complies with Australian Standards AS4454, acts as a soil additive or natural fertiliser and is an ideal growing medium in tropical and vegetable gardens.

PROPERTIES

- Compost is loaded with added beneficial microbes - Designed to stimulate plant growth and profound root formations
- Passed through 11mm screen - Fully composted over a 12-16 week period
- Possesses excellent drainage qualities whilst sustaining balance between air-filled porosity and water holding capacity
- Neutral to slightly alkaline pH levels
- 100% recycled organic product which is weed and pathogen free
- Externally lab tested by Independent Soil Testers to conform to Australian Standards 4454 for Composts

APPLICATION

- Appropriate for tropical plants and vegetable gardens - mulching garden is recommended
- To rejuvenate damaged soils, mix compost through the top three inches of soil
